**Subject:** Introduction

Good Morning ERB2,

I am excited about joining the branch and getting a chance to be more involved with the division's production work. Since joining EFED in 2012, I've had opportunities to work with most of you to some extent, whether that was the Stats Tech Team (Christine & Elyssa), the SAM team (Ron & Rick), RAPL meetings (Elyssa), water model development (Karen), or even more recently ESA assessments (Melissa & Christine). This detail as ERB2 Chief is great opportunity to work with each of you more closely and to learn more about the great work you're doing. I hope to learn a lot over the next several months and to take what I've learned back to EISB to ensure the needs of the production branches are being met. Already I've had an opportunity to learn more with two chemical meetings my first day on the job. With Karen and Jim, we attended a methomyl planning meeting and later with Jim and Nick, there was RD DD briefing for a new chemical, flutianil. I appreciate the teams being well-prepared to discuss the issues at hand. Good job folks! I prefer face-to-face communication and will use the standing branch meeting slot on Thursday to tell you about my management style, goals, and expectations. In the meantime, I'll be coming around to your desks to say hi. Please feel free to stop by office and chat (some of you have already).

Phil
